

KIDS TO OSHKOSH

Midland EAA Chapter 1093 sends 3 young people to the EAA AirVenture Airshow in Oshkosh, Wisconsin, for a day trip. They are flown, with chaperons, from the Midland Jack Barstow Airport in a twin engine plane and spend the entire day at Oshkosh.

They are treated to breakfast by some of our local EAA members who camp at Oshkosh for AirVenture. Cody Welch, a chapter member and Northwest pilot, then gives them an escorted tour of the grounds.

They are given some free time on their own before they meet back for the Airshow

They then board the twin engine plane and return to Barstow – tired, but ‘what a day!’
